Dear Andy

Re: CrossRoads Missions Help Build Hope Team

Dear Andy,

What a great jump start you gave us in building our first Greenup County Habitat for Humanity house. We finished setting up the rest of the interior walls this morning and I want to tell you what an amazing process you have implemented and how delighted we were with the ease of putting the house together.

I was fortunate enough to attend your prebuild meeting last Saturday morning and was truly impressed with your process and with Dave Lockwoods interaction with the 12 construction teams from Raceland Christian Church.

On behalf of the Officers and Board of Directors of Greenup County Habitat for Humanity and our selected family, I want to thank you for allowing us to be one of your "Helping Build Hope" projects.

Sincerely,

R. J. "Bud" Matheny
Project Coordinator
Greenup County Habit for Humanity
